SUMMARY

As a student of computer science and applied mathematics, I am eager to hone my skills through real world experience in the tech industry. In particular, I have an interest in fields related to software and cloud development.

EDUCATION

New Jersey Institute of Technology - Ying Wu College of Computing

Expected May 2026

B.S. in Computer Science

GPA: 3.597

B.S. in Mathematical Sciences, Applied Mathematics

Relevant Coursework: Guided Design in Software Engineering, Database System Design and Management, Intensive Programming in Linux, Advanced Data Structures and Algorithm Design

PROJECTS

Teacher's Pet - Worksheet Generator | www.teachers-pet.site | *Fullstack Engineer* | Next.js, FastAPI, PostgreSQL

- Developed a full-stack, customizable worksheet generation platform, providing unique printable math exercises
- Implemented a performant FastAPI backend for dynamic problem generation and PDF creation using ReportLab
- Built a responsive Next.js frontend, enabling users to intuitively select subjects, configure problem settings, and manage multiple worksheet sections
- Integrated JWT-based authentication for user accounts stored in a PostgreSQL database
- Enabled users to save, modify, and reuse worksheet generation templates for easy repetition and modification
- Implemented social features for worksheet templates, including public listings with search, filter, and sort capabilities, as well as the ability for those with accounts to like, favorite, and publish templates
- Orchestrated CI/CD pipelines for separate frontend and backend deployments on Vercel and Railway, respectively

Stardewdle - Wordle-like Game | www.stardewdle.com | *Backend Engineer* | AWS, Node.js, DynamoDB

- Designed and deployed a serverless backend architecture on AWS to power a daily guessing game inspired by Wordle using data from the hit game Stardew Valley, played by hundreds daily
- Built RESTful APIs with Lambda, EventBridge and API Gateway for daily word selection, user guess validation, game state persistence, and user success tracking in DynamoDB
- Implemented scripts with BeautifulSoup to scrape data from public wiki pages to host on Amazon S3
- Polished a clean user interface that blends the themes of Stardew Valley and Wordle using a CRA frontend framework using Tailwind CSS, hosted through AWS Amplify

Mediline - Healthcare Portal | www.mediline-njit.com | *Frontend Engineer* | React, Flask, MySQL

- Designed a clean and seamless user interface powered by React and Vite.js to declutter the healthcare experience
- Created a reusable UI library for use across dynamic patient, doctor, and pharmacy dashboards to manage appointment, prescription, billing, and account management workflows
- Integrated RESTful Flask APIs via Axios and React Query to handle user actions
- Implemented JWT-based authentication across patient, doctor, and pharmacy roles
- Created real-time features like login and registration, modals, forms, graphs, filtering, and chat via WebSockets
- Deployed MVP for demo use with frontend hosted on Azure and backend on GCP

Other Projects: SPL Language Interpreter (C++), 15 Puzzle Solver (C), Stock Web Scraper (Python)

EXPERIENCE

International Game Developers Association, NJIT

Newark, NJ

Member, Game Jam Participant

September 2022 - present

- Participate in game jams that encourage clear outlining, effective time management, streamlined prototyping, creativity, problem solving done through code, and cooperation with others

MenteeGo Education

Rutherford, NJ

Tutor for Math and CS

February 2022 - present

- Collaborate with other tutors to outline adaptive curriculums tailored for students
- Manage time and priorities of tasks for tutors and students into an optimized schedule

SKILLS and CERTIFICATES

Programming Languages: JavaScript, Python, Java, C++, C, Bash

Web Development: React, Next.js, Vite.js, FastAPI, Flask, Axios, Pydantic, SQLAlchemy, SASS, Tailwind CSS, Rest APIs

Platforms & Databases: AWS, Google Cloud, Vercel, Railway, MySQL, PostgreSQL, DynamoDB, Alembic, SQL

Tools & Workflow: Git, JWT, CI/CD, Postman, MVVM, BeautifulSoup, Figma, Trello, Microsoft Office

Certificates: AWS Certified Cloud Practitioner (May 2025)
